Part 1: Building the foundation(html)

1. Organization overview

> Organization name

- Agristream

> Brief history

- Agristream was founded in 2023 by Shirilele Lufuno Chester in Tshivhulana Vuwani. It focuses on eggs, livestock, fruits and vegetables. Over the years agristream has grown significantly and continues to grow.

> Mission and Vision

- Mission: to cultivate high quality, sustainably grown produce for our community, fostering a deeper connection to our food and the land.
- Vision: we envision a vibrant local food economy where community members have direct access to wholesome, farm fresh products.

> Target audience

- Restaurants and chefs
- Families and home cooks
- Online shoppers
- Suppliers and partners
- Local market business owners

2. Website goals and adjectives

> Goals

- Sell products online
- Showcase the quality of products
- Provide up to date information
- Provide clear directions and contact information
- Attract wholesale customers

> KPIs

- Financial KPIs
- Production and efficiency KPIs
- Resource management and sustainability KPIs
- Market and customer KPIs

3. Current website analysis

> Strength and weaknesses

- Strength: a user friendly design, fast loading speed, high quality content
- Weaknesses: outdated information, poor mobile responsiveness

> Areas of improvement

- Optimize images and minify code. If the site lacks clear calls-to-action, resign buttons and links to be more prominent.

4. Proposed website features and functionality

> Homepage

- Features: a welcoming hero image, a clear headline and tagline, a brief overview on the farm, links to key pages, and customer testimonials
- Functionality: should immediately convey the farm's essence and guide visitors to the most important parts of the site

> About us page

- Features: The farm's story, mission, vision, history, images of the team, and a statement about the farming practices
- Functionalities: should be an emotional connection and trust with visitors

> Products page

- Features: clear categories for products, high quality images and descriptions for each item
- Must be easy to browse. If a product is sold out it must be clearly marked

> Contact page

- Features: physical address, phone number, email address, a contact form, a map with directions and links to the social media profiles

- Functionalities: should provide multiple, easy ways for customers to get in touch

5. Design and user experience

> Colour scheme

- A deep forest green to represent plants and nature

> Typography

- Arial font for the body text for readability. For headings a slab-serif font

> Layout and design

- The design should be clean, spacious and image driven. Images of the farm and its products
- User experience considerations

> Navigation

- the menu should be simple and clear, with intuitive labels

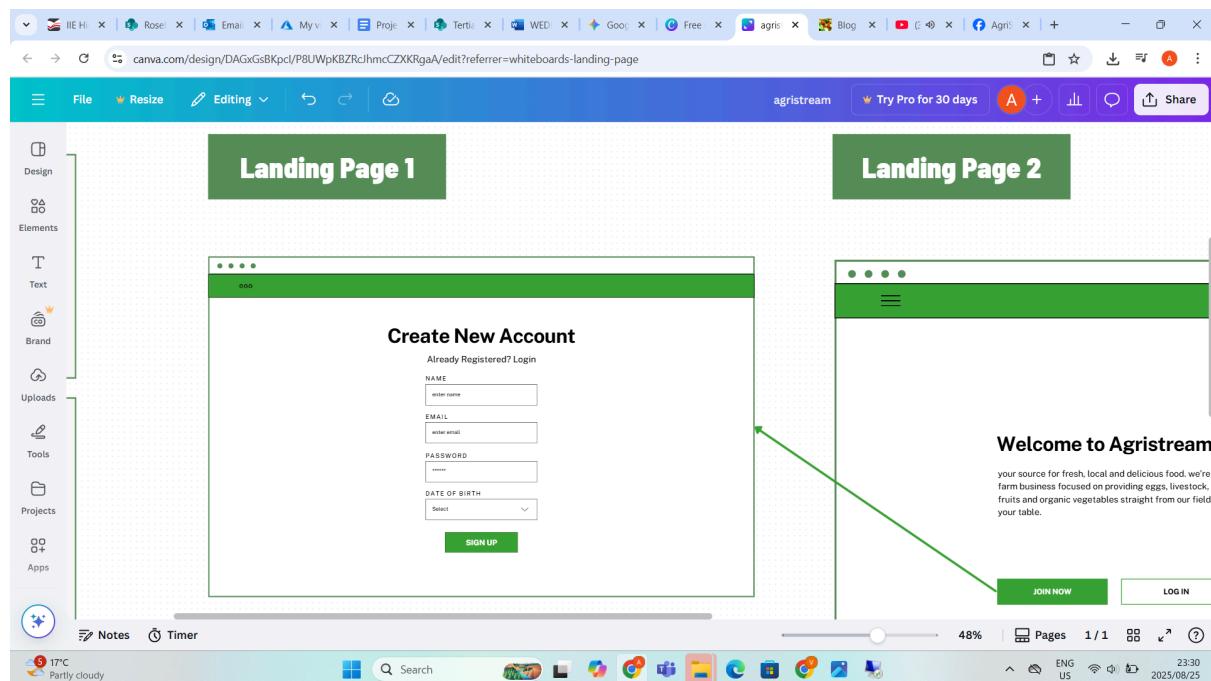

> Layout

- a grid based layout to organize content neatly. Plenty of white space to make the design feel open and clean

> Colour

- proposed colour scheme consistently to create a cohesive brand identity and guide the users eye

> Wireframes

The screenshot shows the Canva interface with a wireframe on the left and a final design on the right.

Wireframe (Left):

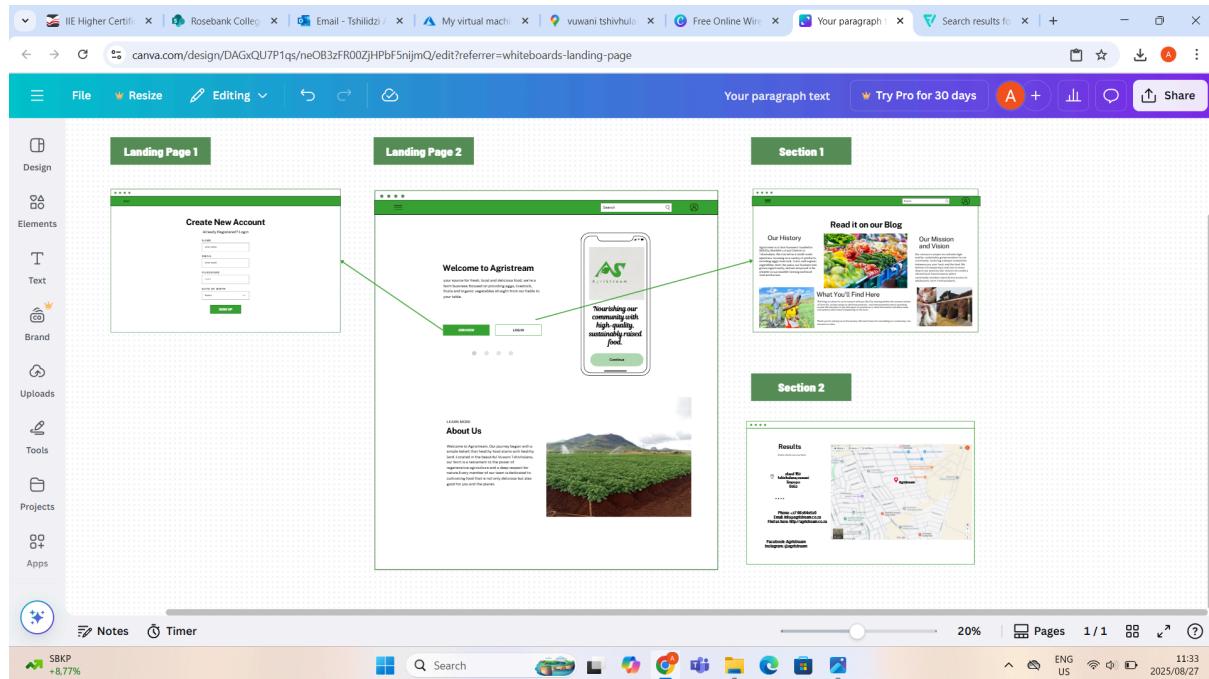

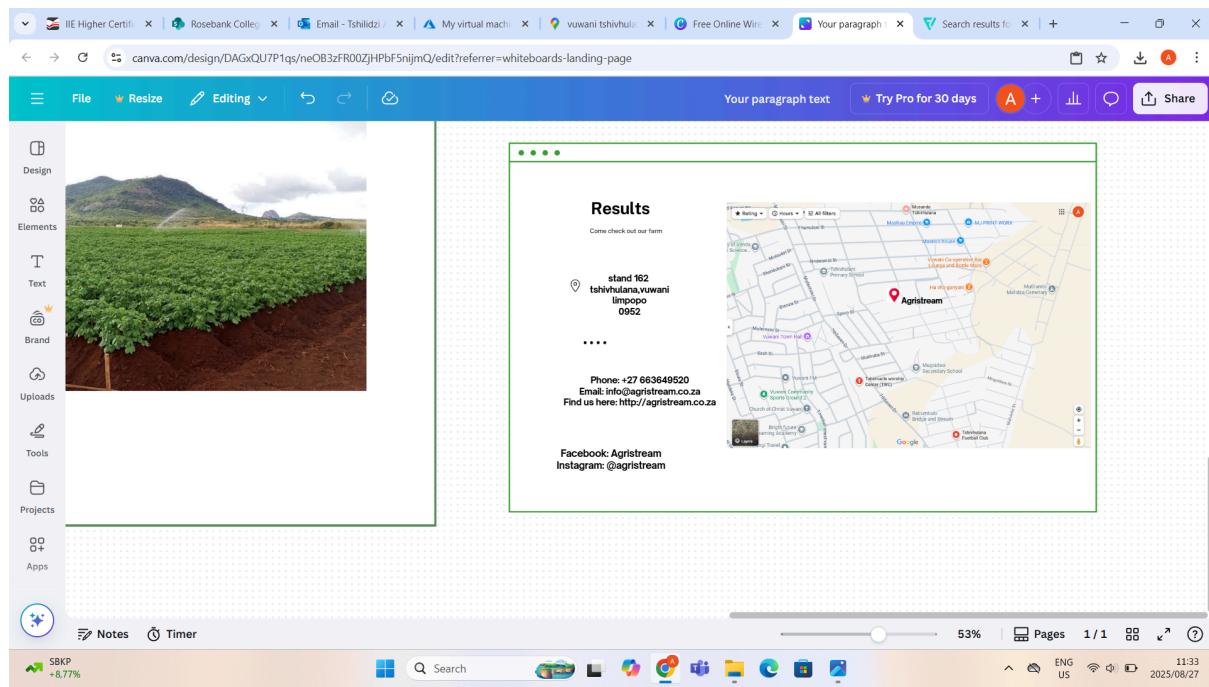

- Design:** Step 2: "Customize elements to build your site. Search for components, themes and more to add sections and add styles for them."
- Elements:** "How to create a dashboard magic!"
- Text:**
- Connectors:**
- Brand:** "Aristream Elements"
- Uploads:** Various icons for file types like PDF, Word, Excel, etc.
- Tools:** Includes a text input field labeled "Use a text field" and a button labeled "Is an Action Button".
- Projects:**
- Apps:**

Final Design (Right):

The final design is for a "Create New Account" page and a "Welcome to Agristream" landing page.

- Create New Account Page:** Shows a wireframe with fields for Name, Email, Password, and Date of Birth, followed by a "SIGN UP" button.
- Welcome to Agristream Page:** Includes:
 - A header with a search bar and user icon.
 - A main section with a "Welcome to Agristream" heading and a brief description.
 - A "JOIN NOW" button and a "LOG IN" button.
 - A mobile phone icon displaying the Agristream logo and the tagline "Nourishing our community with high-quality, sustainably raised food."
 - A "CONTINUE" button.
 - A "LEARN MORE" link.
 - An "About Us" section with a paragraph about the company's mission to provide healthy food from local farms.
 - A photograph of a field with irrigation equipment.
- Header:** Shows the URL "canva.com/design/DAGxGsbKpcI/P8UWpKBZrJhmCZXRgA/edit?referrer=whiteboards-landing-page" and a top navigation bar with various tabs like IIE HI X, Rose X, Email X, My v X, Proj X, Terti X, WED X, Googl X, Free X, agris X, Blog X, ENG X, and Agric X.
- Bottom:** Includes a notes/timer icon, a weather icon (17°C Partly cloudy), a search bar, and a toolbar with various icons for file operations.

The screenshot shows a Canva workspace for designing a website. The left sidebar contains various tools: Design, Elements, Text, Brand, Uploads, Tools, Projects, and Apps. A green arrow points from the 'Elements' icon in the sidebar to the 'Elements' panel on the right side of the canvas. The main canvas area displays a template for a farm business. The header features a green bar with three dots, a search bar, and a user icon. Below the header, there's a section titled 'Read it on our Blog' with a large image of fresh vegetables. To the left, there's a section titled 'Our History' with text about the farm's founding in 2023 by Shirley Farmer. To the right, there's a section titled 'Our Mission and Vision' with text about cultivating high-quality produce. At the bottom left, there's a photo of a woman in a yellow shirt in a field, and at the bottom right, there are photos of pigs and cows. The bottom navigation bar includes icons for Notes, Timer, a progress bar (67%), Pages (1/1), and a download icon.

6. Technical requirements

> Hosting

- SSD-HOSTAFRICA

> Domain

- <http://agristream.co.za>

> Programming languages and framework

- HTML, CSS and JavaScript. Shopify for custom E-commerce solution

7. Timeline and milestone

- > phase 1: (week 1)
 - Research and planning
- > phase 2: (week 2)
 - Website structure and planning
- > phase 3:(week 3)
 - Content research and sourcing
- > phase 4:(week 3-5)
 - HTML structure and basic content
- > phase 5:(week 6)
 - Github repository
 - Submission

8. Budget

- Domain name: R10000-150000
- Hosting: R15000-20000
- Website design/development:
 - > DIY: R50000-R100000
 - >Hiring a freelance developer:R15000-R20000
 - > Web agency: R10000-15000
- Maintenance: R10000-R20000
